LA SHERIFF REFUSES TO INVESTIGATE APPARENT FORGERY

[michael laham](#) - Sep 11, 2003 10:16 am [reply](#)

During the RED HOT real estate market in 2002, we listed our home with Presidential Real Estate of Cerritos, CA, with selling agent Richard Feng. It sat unsold on the market for five months because we had problems with Presidential Real Estate.

One problem was their attempt to lock us into a sale contract at a price below market. Finalizing this bad sale depended on Richard Feng acknowledging receipt of buyer's acceptance of Counter Offer #1 before its stated deadline, by initialing the counter offer. When we received a copy of Counter Offer #1, Richard Feng's initials appeared to have been forged. We showed the questionable initials of RF, with other examples of RF that we witnessed Richard Feng sign, to two highly qualified handwriting analysts, in whose opinion the initials RF on Counter Offer #1 were forged.

Forgery is a crime, per CA Penal Code Section 470, so on 3/28/03 we went to file a criminal report at the Los Angeles Sheriff Department's (LASD) Cerritos Station. We spoke to Deputy Floan who asked about whom we wanted to complain. After we told him, he told us to speak to deputies Smith, Serrano, and Bastian, for whom we waited over two hours before they spoke to us. Deputy Smith told us we could not file a criminal complaint since we already sought civil redress. When we asked him what law says this, he did not know!
