SUBJECT: Accident Report Regarding Automobile Accident on 26 March 2005, State Farm Claim Number 75-A954-439, O.C. Sheriff Case Number 05-056677.

Dear Ms. Wilson,

This accident report to our insurance company, State Farm Mutual Automobile Insurance Company, regarding State Farm Claim Number 75-A954-439, is also an amendment to the original police report for O.C. Sheriff Case Number 05-056677. That police report was taken while **we were in a state of duress due to harassment by two so-called witnesses.**

At sometime between 12 noon and 2 PM on Saturday, 26 March 2005, we were traveling west-bound on Lake Forest Drive. We went through the intersection of Lake Forest and Pittsford, and we were in the left-most lane, and our traffic light was green. We were almost completely through the intersection (the front wheels of our car were just about to roll over the outer line of the cross-walk) when our car was hit. It sounded and felt like we had blown a tire. I navigated to the shoulder of the road. As we stopped and got out of the car, we looked around the entire area to see who hit us, but **we saw nothing of any car that might have been in an accident with us. So at first we thought this was a hit-and-run.** Having no cell phone and not wanting to leave the scene of the accident to contact the police, we waited, hoping that whoever hit us would show up.

Approximately ten minutes later, a white truck, CA License Plate Number 4V06418, came to a halt in front of our vehicle. While we were looking at the damage to our car, my wife told me that she thought we blew a tire. At that moment, a white slender tall male who had come out of the truck walked over to my wife and in a sassy, arrogant, angry voice yelled, "Oh, come on. . . . Don't give me that. . . . You know you hit the other car. . . . You know you are guilty!" With a shocked look on her face, my wife said, "I'm the passenger, not the driver. Who are you?" Then he pointed his finger in my face and yelled, "The minute I saw your face, I knew you were guilty." I wondered, if he actually saw the accident, what does my face have to do with anything? By that time he was accompanied by a white slender tall blonde female. I asked them, "Are you the driver that hit us?" They both screamed, "We're the witnesses!" Then he yelled, "You ran a red light. Admit it. You're guilty." And the female so-called witness yelled at us, "You injured the female of the other car so badly that you almost killed her!"

31 March 2005

Ms. Pam Wilson, Claims Office, State Farm  
Orange County Sheriff-Coroner Department

But at no time did any ambulance(s) come to the scene of the accident. Also, when the car (Honda CA Lic. 2YAD185) that supposedly hit us finally showed up, which was a few minutes before the police arrived, the woman who was supposedly badly injured sat motionless in the passenger side of the car for a little while, but **then she ran down the street** (Lake Forest Drive) and around the corner and re-appeared a moment later, walking briskly with two young Asian-looking men by her side. This woman also looked Asian and young. In addition, our car had some damage (more on that later), but the **car that supposedly hit us appeared to not have any damage** except for a small tear in the black covering on the front of their bumper. Neither I nor my wife, who are both middle-aged people, were at all hurt, and the air bags in our car did not inflate.

When my wife pointed out to the so-called witnesses how **the supposedly horribly injured passenger jumped out of her car and went running down the street**, the so-called female witness yelled, "I said you could have killed her." Why say anything if she was all right? And if she was a witness, shouldn't she know that she was all right? I tried to show the male witness that the **wounds on our car indicate that the other car must have hit our car** – not the other way around, as he claimed. He just glared at me with clenched fists, and for the first time ever, he had nothing to shout at me!

From the moment these two so-called witnesses came out of their truck until the police finally arrived, without relenting they kept screaming at us that we were guilty, they kept yelling obscenities at us, and they kept shouting at us to shut up. At **no time** did these so-called witnesses **ever** introduce themselves to us, or inform us that they had notified the police that an accident occurred, or asked us if we were hurt. We repeatedly requested that they leave us alone, but they **continued without restraint to harass and bully us for no reason**. Because of their behavior, my wife requested that the police file a statement of harassment against them, but **Deputy T. Spaulding said that our request to file a statement of harassment was a civil matter!** Because of these events stated above, we became very suspicious that these were not real witnesses. If they were real witnesses, then:

1. Why did they verbally attack us, especially when we were not even in an accident with them?
2. Why did they **show up on the scene of the accident a considerable amount of time** after it happened? Were they waiting to make sure no authentic witnesses would come forth?
3. Why did they **hang around us** so much? As witnesses for the other party, they should have been with the other driver, contacting the police, waiting for the police to show up, and giving the police their information.

These so-called witnesses never even asked us for information pertaining to the accident. Instead, they spent their entire time verbally abusing us.

31 March 2005

Ms. Pam Wilson, Claims Office, State Farm  
Orange County Sheriff-Coroner Department

⊗

About five minutes before the police arrived, the driver of the other vehicle (Honda CA Lic. 2YAD185) that supposedly was in an accident with us parked their car by a bus stop on the south-west corner of Lake Forest Drive and Pittsford. The other party **refused to talk to us** or let us talk to them to exchange information about the accident. Therefore we do not have their names, addresses, phone numbers, or insurance carrier or policy number. All we have is their car's license plate number – CA 2YAD185. Both the driver and passenger appeared to be young Asian females. They were both **mobile** and able-bodied. Their car was **operational**. The only damage we saw on their car was a small tear on the black coating that covers the front bumper on the driver's side. Other than that, the entire car looked like it needed a paint job. It looked shabby.

In our opinion, the above car was not the vehicle that was involved in an accident with us.

1. Our wounds show a streak of broken paint – a horizontal mark about 25 inches above the ground across our left quarter-panel. And if its body hit our car, then **why is there no blue paint from this car** on our car?

We therefore believe that our car was struck by a larger vehicle with a wider, higher bumper, such as a truck.

In our opinion, we were hit deliberately. We believe this because:

1. The wounds on our car, on the left rear door, left rear hubcap which got knocked off during the collision, and left rear quarter-panel, seem to indicate that the other vehicle struck us, not the other way around. Also, **the front bumper of our car has no wounds at all**, indicating that **our** car did not hit anything.
2. The wounds on our car seem to indicate that the **other vehicle hit us broadside** and in the back of our car. At the time of the accident, we were exiting the intersection of Lake Forest Drive and Pittsford, going west-bound on Lake Forest Drive, when we were hit.

31 March 2005

Ms. Pam Wilson, Claims Office, State Farm  
Orange County Sheriff-Coroner Department

3. According to the wounds on our car, the only other way we could have been hit by their car is if their car was making a left-hand turn going north-bound on Pittsford from Lake Forest Drive. The wounds on our car indicate that **we were hit in the back of our car**, and so we would have to be, as stated above, exiting the intersection, going west-bound on Lake Forest Drive, for them to hit our car. They would be accelerating from a stop to a speed of no more that ten miles per hour to begin their left turn. **So why did they not see us and stop?**

Due to all of the above observations, we believe that we are involved in a scam.

We apologize for this lengthy report but we felt the need to include any and all information we believe to be pertinent to this claim.

Sincerely,

Michael Steven Laham and Elana Laham
