people just don't want Gohan to surpass Goku and Vegeta but no matter how far Goku and vegeta r he can always catch up just like with the cell Saga and so can Piccolo

Honestly i think it would be awesome if Gohan gets a Super Saiyan God transformation I mean if they make his training look epic in Super and he doesn't use a magical power up like in Dbz. Personally I feel that Gohan could become Super Saiyan Blue because Toriyama said that that half breed saiyans are stronger yet more fragile than pure blood

I think he will find a way to combine ss2 with ultimate form and that would probably be more powerful than ssgss

gozan is a weakling compared to goku, vegeta and the gods, plus akira is not showing any interest in developing his character anymore

Gohan is ultimate in base form.... Wouldnt goku learn to harness it also? Maybe his final form is base? No energy lost, energy harnessed.

piccolo is a waste of time. he has never been anything. I think gohan should train with his dad. The only time he was strong is when he trained with his dad. I think it would be cool if he trained with his dad and vegita and unlocked the real super sayian god with the red hair. Make sense tho since he was the only one to unlock the true form of ss2 and the rest

gohan will NEVER become a God cause it's already two if he become one that's one too many God's in this bitch so he should just go mystic and train to get stronger maybe even mystic but with a new hairstyle and clothes

you can tell gohan might join because first of all, buu is out, second its a written test to pass and gohan is like smart as heck, third gohan asked to train, like its just giving you clues that gohan might join
