17 Imao he's weak in "power", gohan got his ass kicked by a base form frieza, it would be funny as fuck if he returned as the great saiyanman

+astien perez I don't wanna see him turn into a tein or yamacha but he do need to get his act together. Also get the kids together cause no other Zwarrior is stronger than goku and vegeta base during buu saga

Please No ssgss - if so then it will be like SSJ all over again i dont want every character to be a god - let the pre bred saiyans only have it - atleast make gohan SSJ3 or like have a Mystic 2

+John Belardo I know their rather overpowered, i accept that, GT Goku in base is meant to be at or slightly above kid buu level, so equal to his DBZ SSJ3 form, but there is no indication that him as an adult would be SSJG, at most his power was cut in half when he turned into a child, so times SSJ3 power by two would not make [Read more](#)

Its like trying to force something thats not there. GOHAN is not a natural born fighter like Goku and Vegeta. Even if we get a stronger Gohan he is eventually going to stop training again and get weak. Hes done it time and time and time again. He has the most potential yet does nothing with it.

I hope he doesn't become a complete meathead fighter. The fact that he is a family man and doesn't like fighting is what makes him Gohan to me, that's what made him go SSJ2 and that's the way he should stay. If he does get a massive powerup from training with Piccolo, I want him to stay as Gohan. I know people hate Gohan being wimpy but I think it

How do you feel about Goten and Trunks? For the love of God I do NOT mean Gotenks. Like Paul said, that wouldn't go over too well. I mean individually as they age and become more mature. How would you like to see their characters develop?

It's not about u don't want gohan to get ssg or ssgss or mystic gohan it's simple, Just give him any type of power up he need to reach you level idc what it is I just want gohan to be back in action that the BIG picture kids.

Reply •

+INFAMOUSROCKSTAR5000 i havent seen super but did they retcon the fact that after training with elder kai his power level is NEVER SUPPOSED TO INCREASE AGAIN? That was the whole trade off. You go instantly to your max power that you can handle now (shooting straight past Goku and Vegeta who had been training for

did u forget that "mystic" was gohans full power, but now people say that not only will he become mystic but a "mystic god", like do u know how much training he has to do, but then people say "whis can just unlock his full potential" when did whis say he had that power? the only person to do that was the namekian, and if whis did have that power don't you
