Gohan's right though. cell's last words while alive 'i am perfect' he thought he would have been invincible once he became super perfect.

"I once had a platoon at my disposal if I had said pour yourself into the abyss and die for me they wouldn't have dared to question my command such is the loyalty of a true saiyan." if only the half breeds were as ruthless and brutal as the pure bloods.

Shout out to Mellavelli! He predicted the Trunks' new form in DBS like two episodes ago. Even though, unfortunately, I don't think we ever saw that again, lol.

This shit's a hundred times better than dbs...akira toriyama should've asked you for help before starting with dbs. Am i the only one that thinks new saiyans are way more interesting than this whole god shit in dbs?

I like how most people prefer this series over Dragon Ball Super. And yes, I like Dragon Ball Absalon too, but you guys don't give DBS a chance! Just because the RoF arc and the first half of the Battle of Gods arc sucked, doesn't mean the rest doesn't! I mean, look at Goku Black! Probably as Dark as you can imagine. I mean, he literally took away Trunks' future.
