To Whom It May Concern:

Can you please tell me what is happening with my website?!

When I go to click onto it the search engines show it on their web page but say www.bullcrapbusters.com's server DNS address could not be found.

Also when I go to log in to Homestead the search engines show it on their web page but say homestead.com's server DNS address could not be found.

See attachments 01A and 01B to this e-mail for details.

I am paid up for this month.

See attachments 37 to this e-mail for details.
