“To Chief of Police Hori Rami

I have reason to be concerned that if you, the Chief of the Karmiel Police Department Hori Rami, do not enforce my Protection Order against Susana Vexler...

...then Susana Vexler will continue to act in contempt of court by continuing to violate my Protection Order against her by escalating the conflict she has made against me by once again harboring violent males who will commit assault and battery upon me like her boyfriend, Vitlay Zezkav, already did.

I have had to file four Police Reports against Susana Vexler for being in contempt of court since she violated my Protection Order against her because your Karmiel Police Department refuses to enforce my Protection Order against her.

That being said...

I am requesting that you conduct an investigation on the threatening note that I have reason to believe Susana Vexler addressed to me in contempt of court and in violation of my protection order against her for you to question her, dust for her fingerprints, and get a handwriting sample from her in order to prove whether or not she wrote this note. (I handled it with gloves. So it does not have my fingerprints on it).

I am requesting that you conduct an investigation on the trash that I have reason to believe Susana Vexler deposited against my apartment door in contempt of court and in violation of the protection order against her for you to question her, and dust for her fingerprints in order to prove whether or not the trash is hers. (I handled it with gloves. So it does not have my fingerprints on it).

That is if you are interested in doing your job versus accepting bribes that endanger peoples' lives.
